

# BRINGING FAMILIES AND COMMUNITIES TOGETHER

Dear Voter,

I'm Ben Leonard, candidate for family court judge, in Crittenden, Union and Webster counties. I worked my way through school with jobs in construction, other part-time jobs, and loans so that I could spend my career helping families. My law practice was built from the ground-up with a constant focus on my personal motto that we are all here to serve.

I have practiced law in every area covered by family court and know the decisions of family court affect the people before it as well as generations to follow. As a result, I pledge to focus on the best interests of children, listen to all sides of any issue before coming to a decision, and to be respectful of everyone. I also promise to bring compassion, common sense, common decency, and an unmatched work ethic to the bench. I truly believe in treating others as you would like to be treated and believe that working together we can make our families stronger and the future of families brighter.

I will never forget that I work for you and the families in our communities and my service will be with a deep and abiding faith and focus upon the families I care about so deeply. I ask for your prayerful consideration on November 4th.
