Music on Main ends Saturday

Performances for Music on Main, presented by Saturday with Blind Faith, a Southern Gospel group from Sturgis, will be from 2 to 4 p.m. on Sept. 24 and 30 at the Marion Welcome Center. Admission is free; however, only those with reservations will be admitted. The first 50 in attendance will receive free t-shirts. The event is sponsored by Marion Main Street.

Food give-away slated for Friday

Free groceries will be distributed to residents of Crittenden County by the Marion County United Way on Friday at the Marion Citizens Center on North Walker Street. The Community Action Agency is asking those interested to call 965-5015. The agency is asking those interested to call 965-5015.

Burn ban reinstated, city water quality OK

Water quality inside the City of Marion is much better now than it was earlier this summer, according to Magistrate G.Pool.

Senior moments: More living longer

By DARYL K. TAMBOR
Senior reporter

A great number of Mona Manley's good friends are over 75 years old, so it's no surprise to her the life expectancy of Americans is at all-time high.

New 2005 government figures released last week show the U.S. life expectancy at birth stood at 77.6 years in 2003, up from 72.5 years in the previous year.

The increase was more dramatic in contrast with 1950, when it was 68.6.

"I think there's more awareness that we need to exercise and know how to eat," Manley said. "We didn't have that awareness in the 50s." She adds to the quality of life for those in a couple of marriages," she said; however, the center does offer an addition to the facility that more than doubles its square footage.

The middle school students will receive letters in the coming days informing them of the option of attending another nearby middle school. Those who receive free or reduced-cost lunches may also be able to provide supplemental services, which might include extra help from mentors and access to resource personnel.

Through offering school choice is required under Title 2 consequences as it was also last year due to CCMS's failing NCLB scores, it doesn't necessarily mean any student can take advantage of it.

With school choice, the local school administrative council would have to develop a plan of transportation to students whose parents choose an option outside the district. The council would have to check with two districts in Kentucky for assistance with their progress goals and see if their good NCLB scores are intact.

Superintendent John Belt checked with Latonia and Utica in 2006 to see whether either would accept Crittenden students if they so choose. Neither did. Monday, he said he checked with Latonia and Utica and was waiting on a response. They can only go to DeKalb County Middle if not already since it.

The Marion Main Street Committee has officially closed their doors here in Marion. Many old, way way old, former workers ended up at Rayloc and Belt, who estimates about 200 Crittenden middle school students in the city driving water around 90, with 115 miles, 8.6 miles.

Recent rain has done little to allevi-

ate our over-watering and over-treatment concerns.

“A lot of us are starting to get some younger students those who are coming in longer than five years ago,” said Bryant. “They are finding that the area is a good place to raise a family.”

Some have said that the area is a good place to raise a family because of the size of the home. Manley said that she and her husband have five children and that they find the area to be a good place to raise a family.

Man who led police on chase turns himself in

Rita Watson (right) officially joined the ranks of retired teachers Monday, when the 27-year educator was honored by the Crittenden County Retired Teachers Association. The group met at the public library to recognize Watson, who retired last fall from Crittenden County Elementary School but has now decided to hang up the red-vest and stick around to continue lending a hand.

Rita, 42, taught 20 years at CCES as a kindergarten teacher after spending her first seven in Warren County. She taught at Washington County Elementary School for eight years before moving to Crittenden.

Rita is married to John, a retired Marion police officer. Her son, John III, also retired from police work and is now a teacher at Warren Central High School.

Rita taught at 21 different schools in 11 different districts before ending her career.

The car sped up and quickly gained on the suspect. Johnson said that when the car hit the backstop, it ended in a ditch. Johnson recommended exploring the setback rules which would require plans to be constructed in a particular distance from a home, public building, property line or highway. She said state law does not provide any minimum setback rules or more restrictions for gas and oil companies. Magistrates and Judge Brown asked Johnson to continue working on a proposed set of ordinance which would allow the magistrates to research possible ideas. Judge Brown said that the companies should not worry about being placed in a no-win situation. Johnson said that the companies should be able to attend the meetings to present how they can be helpful. Judge Brown said that the magistrates should go forward with their own recommendations, not at local taxpayer expense.

Judge-Executive Fred Brown said.
In the early 1920s before the construction of good county roads, automobiles and buggies struggled to ply the muddy paths around the county.

Appointed by the court and would report to the magistrates, the road commissioners would move from one district to another at the expense of each.

The court voted to place 6,800 on a fund to be used in construction of a county road. Under the leadership of Judge E.J. Ruddell, a new system of maintaining the roads was decided on by the fiscal court. According to the new plan, the roads would be considered part of the public roads of the county, and would be paid for by poll taxes. The tax rate was set at 2.5 cents per $100 of property, with each male citizen over 21 years of age required to pay a reasonable poll. This tax rate was set at 3.5 cents per $100 of property, with each male citizen over 21 years of age required to pay a reasonable poll.

In 1928, the fiscal court meeting in August decided to give the county a fund to be used in the building of roads. The new system of road maintenance was planned to change the road system of the county. In the old plan, there was no provision for the upkeep of the road system. The new plan would give the county a fund to be used in the building of roads. The new plan was to be paid for by poll taxes. The tax rate was set at 2.5 cents per $100 of property, with each male citizen over 21 years of age required to pay a reasonable poll.

FULTON – Crittenden County hosted Fulton for its football season opener on Friday night. The game ended with a score of 29-27, leaving Fulton with a 1-0 mark. Crittenden, on the other hand, is now 0-1 on the year.

The game was held at Fulton High School's Homecoming Stadium, with the scoreboard showing a change in the final score of 29-27. Fulton led 14-10 in the first half, but Crittenden took over in the second half to win 29-17.

The win was the first for Crittenden since 2006, when the Bulldogs last won a game against the Yellowjackets. The Bulldogs have been struggling on offense this year, but they put in a solid performance against Fulton.

Crittenden next faces off against Carter County on Friday, Oct. 13, with kickoff set for 7 p.m. at Crittenden County High School's Homecoming Stadium. The game is expected to be a tough challenge for both teams, with Crittenden still trying to find its rhythm on offense.

Fulton, on the other hand, is coming off a loss to Union County on Friday night, with the final score standing at 41-28. The Yellowjackets will be looking to bounce back against next week's opponent, which is expected to be another tough challenge.

The win against Crittenden was a welcome boost for Fulton, which has been struggling on offense this year. The Yellowjackets are expected to continue to work on their offense in the upcoming games, looking to improve their scoring and overall performance.

Crittenden's next game is set for Oct. 13 against Carter County, with kickoff set for 7 p.m. The Bulldogs will be looking to continue their winning streak against the Yellowjackets, while Fulton will be looking to solidify their position in the region standings.

Overall, the game was a great opportunity for both teams to showcase their skills and improve on their weaknesses. With the win against Crittenden, Fulton's confidence is expected to rise, while Crittenden will continue to work on their offense to improve their performance in upcoming games.

This Week's Game

Crittenden County High School vs. Carter County High School

Kickoff: 7 p.m.

Location: Crittenden County High School's Homecoming Stadium

Game Preview

Crittenden County High School has had little trouble with their opponents. They have won their last two football games, including a 37-14 win over Union County last week. Carter County High School, on the other hand, is struggling on offense, having scored only 14 points in their last game against Union County.

Crittenden County is expected to take advantage of their opponents' weaknesses on defense, with their strong offensive line leading the way. The Bulldogs' defense is also expected to step up against Carter County, with their experience and skill.

Crittenden County's head coach, Mike Gibson, is expected to continue to work on his team's offensive line, with a focus on improving their passing game. The Bulldogs' defense, on the other hand, will be looking to continue their strong performance against Carter County.

Overall, this game is expected to be a tough challenge for both teams, with Crittenden County looking to continue their winning streak and Carter County hoping to improve their performance on offense.

Crittenden County is expected to win, with a final score of 28-14. The Bulldogs will be looking to showcase their skills and improve on their weaknesses, while Carter County will be looking to solidify their position in the region standings.

Overall, this game is expected to be a great opportunity for both teams to showcase their skills and improve on their weaknesses. With the win against Crittenden, Fulton's confidence is expected to rise, while Crittenden will continue to work on their offense to improve their performance in upcoming games.
