# Heart Scans

Give Mom the Gift of  
Heart Health this Mother's Day

A heart scan, or CT Cardiac Scoring, is a Computed Tomography (CT) exam used to evaluate the coronary arteries for plaque and other anomalies to determine if you are at risk for heart disease. The exam only takes 15 minutes, there is no prep and it is non-invasive. Answer the questions below to find out if you are at risk.

**Do you have any of the following primary risk factors?**

- Family History of Heart Disease
- High Cholesterol
- High Blood Pressure
- Smoking
- Diabetes
- Overweight
- Sedentary Lifestyle
- Men Over 45, Women Over 55

**If you answer YES to any of the above questions, you may be at risk for heart disease.**

*\*If you have had cardiac bypass surgery, stents, or know you have a cardiac calcification - this test is NOT for you.*

**Call 270-988-2181 to schedule an appointment.**

**This month only, get a \$75 heart scan.**

*(Regular price \$99)*
