GENERAL POLICY STATEMENT OF THE CRITTENDEN COUNTY FAIR

The Crittenden County Fair Board and Lions Club Fair Committee have tried to bring an entertaining and educational event to the people of Crittenden County and the surrounding area. When the Committee first began planning the Fair, we felt a general policy statement should be followed throughout the planning and carrying-out phases of the event. The following is that statement on the purpose and nature of the Fair and what we hope to accomplish by having this event:

PURPOSE: To give county youth an opportunity to exhibit projects, or results of projects they have completed while participating in a county youth organization. Also, to provide an opportunity for county adults to view these results as well as take part in the event and to screen entries for later competition on the state level.

NATURE: The Fair will be in the tradition of “old-time” fairs, with emphasis on quality agricultural and home products rather than on carnivals and entertainment. The Fair will have local management with local people participating.

WHAT WE HOPE TO ACCOMPLISH: To contribute to the quality of our farm and home products, and most importantly, contribute to promoting county unity and pride.

4-H ENTOMOLOGY & HONEY

See General Rules applying to all 4-H exhibitors and 4-H exhibits other than livestock listed previously in the catalog.

Each county may have 1 entry per class. An exhibitor may enter only one class in Entomology and no more than two entries in Honey (one extracted, one chunk).

Specifications for Pinned-Insect Exhibits: 687A, 688A, 689A, 690A and 691A and Insect Photography Exhibits: 687B, 688B, 689B, 690B, 691B

Pinned-Insect Exhibits:

1. Folding cardboard insect-collection boxes available through University of Kentucky (Martin-Gatton College of Agriculture, Food, and Environment Department of Entomology) should be used. Homemade or purchased cardboard or wooden exhibit boxes may be used instead, but must have protective lids that can easily be opened and that don't damage the specimens inside. They must be approximately 9 inches by 12 inches* (cardboard) or 18 inches x 24 inches (wooden) and approximately 3 ½ inches thick. All boxes must have foam bottoms (such as 8 millimeter or 3/8 inch thick EVA foam available at hobby shops). Wooden boxes should have Plexiglas or glass covers and boxes must be easily opened (for instance; if a screw is used to secure Plexiglas tops, use a thumbscrew fastener instead of a fastener that requires a tool). (*For cardboard boxes, any size with a footprint about the size of a standard sheet of printer paper or a little larger is acceptable.)
2. Specimens are to be arranged so the box can be exhibited horizontally. 4-Hers may attach wires to the back of wooden boxes to help make them easier to display.
3. Identification labels available from your County Extension Office must be used, or custom labels may be printed if they conform exactly to the font, font size, and font color of the official labels. Labels should be printed onto white cardstock. The exhibit identification card should be placed on the front of the box (each box). Instructions for pinning and labeling are included in your project literature.
4. One half of the specimens may be from the previous year's collection or from anywhere in the United States; one half or more must be Kentucky insects collected since the last Kentucky State Fair. No insects that were originally collected from countries outside the United States will be judged.
5. For the first through fifth year projects, a display collection catalogue must be in an envelope attached to the back of the display box. Envelopes should be attached to permit their being opened easily to remove catalogue from them without moving the exhibit.
6. Most specimens in the display cases should be pinned, and the use of vials is discouraged. If vials are used, they may account for no more than 2% of a collection. Vials must be securely wired or pinned to the pinning bottoms.
7. The inclusion of non-insect specimens (spiders, e.g.) is encouraged, but because this is primarily an insect collection and because non-insects do not preserve well on insect pins, points will be deducted if there are more than one specimen from each non-insect class.
8. Pinned entomology exhibits are judged on the following categories: Orders, Species, Common Names, Labels, Condition of Specimens, Overall Appearance, Life Cycle Representation, Catalog of Specimens. Check with County 4-H Agent for point distribution on score sheet.
9. Exhibits will be penalized if they do not:
 - a. Use insect pins for pinning insects.

- b. Use 4-H entomology identification labels.
 - c. Fulfill the requirements of the particular exhibit under which it is entered.
 - d. Have the insects arranged so the box can be exhibited horizontally.
 - e. Have the display collection catalogue in an envelope attached to the back of the display box through fifth year projects.
10. No extra credit will be given for specimens exhibited beyond the numbers listed in the current project books.
11. 4-Hers entering fifth year cannot use the same exhibit that has been judged in any previous State Fair.

Insect Photography Exhibits:

1. Images will be submitted on a USB memory device (such as a "thumb drive") with no other data except for the images and folders. The USB device must be identified externally with a tag or label, showing "4-Hers last name-County-Lot Number-Class Number-Entry Number". The single root folder will be labeled with the same information. Images will be contained inside this folder. Example folder name: Doe-Fayette-6026-687a-24531
2. Each image will be .jpg format, 1920 X 1080 pixels. Vertical or horizontal black bars may be present to allow for cropped images.
3. Each image will have a filename that matches the following: "last name-county-#.jpg" where "#" indicates the number of the image inside the folder. Example filename: Doe-Fayette-1.jpg
4. Each image will include a 400 X 225 pixel (or larger if necessary) white notation box with important information about the photo. This notation field may be placed anywhere inside the image, including inside black bars (if present). Fonts may vary based on the 4_hers software, but we recommend Ariel, 18 pt, black, non-bold. The notation field will include the following information, with one space between each line:
[4-Hers Name, County, Lot Number, Class Number]
[Date of original Photograph]/[Location of original photograph. Location may be in form of a street/city/zip code address or GPS coordinates.]
[Brand and type of camera or camera phone]
[Settings, including type of lens, relevant camera settings, and "flash" or "no flash"]
[Insect Order – Common Name]
5. First year entomology photography exhibits are judged on the following categories: Orders, Species, Common Names, Labels, Quality of Photograph. Check with county 4-H Agent for point

Include information in the display that tells how the insect is controlled. Life cycle of two insects may be displayed if desired.
- 690B Fourth year project: Three cardboard boxes approximately 9 inches x 12 inches, or two 18 inches x 24 inches wooden boxes, with minimum of 12 orders and 150 insects, no maximum. An addition cardboard or wooden box with an example of insect damage, the stage of the insect causing the damage and any other stage of the insect that helps identify the problem. Include information in the display that tells how the insect is controlled. Life cycle of two insects may be displayed if desired.
- 690C Junior Level Entomology Video Project. 1-3 minute entomology video submitted to social media platform (YouTube), focusing on one insect or insect relative (including arachnids, centipedes, millipedes, and crustaceans) that lives in Kentucky. Specifications:
- a. Video may be created on any video-editing platform and may include editing, cuts, text, special effects, filters, still images, music, and narration.
 - b. The final video will be uploaded by the 4-Her onto YouTube, either to an account managed by local County Extension staff or to an account managed by the 4-Her. If the County Office is managing the account, they will provide a link to the video to blaken@uky.edu. If the 4-Her chooses to upload the video with privacy settings, the final video may be shared as a link to blaken@uky.edu (for YouTube videos) prior to St. Fair project submission deadlines.
 - c. The video should begin with an introduction from the 4-Her which includes the following information: First Name, County Name, Name of Project ("Junior Level Kentucky 4-H Entomology Video Project"), Common Name of Insect (or insect relative), Scientific Order Name of Insect (or insect relative).
 - d. The 4-Her may appear in the video if they elect to do so and if they have a H-328 photo consent form on file (<https://entomology.ca.uky.edu/file/photo-imageconsentformh328pdf>). The inclusion of 4-H logos (such as on

a T-shirt, or on a County Extension sign) in the video is encouraged. Videos may be used by the University of Kentucky on websites or social media for education or entertainment purposes.

e. The video should focus on a single kind of native or non-native insect or insect relative that lives wild in Kentucky. The video does not have to focus on a single species, but needs to be more specific than the Order level. For instance, a video on "wolf spiders" would be acceptable, but "spiders" would be too general for this project. Similarly, "lady beetles" would be an appropriate topic, but "beetles" is too general.

f. The video may cover any factual information about the creature including: habitat, feeding strategies, defense, range, life cycle, impacts to humans, conservation status. Additional content, (such as folklore, humor, or personal experiences with the creatures) may be included, but should account for less than 50% of the content. Information may be delivered via narration (live or overdubbed), text/subtitles, or a combination.

g. Any media used in the video must be generated by the 4-Her. Images, video clips, music or sound clips from other creators should not be used, with the exception of background music licensed for use by individual social-media platforms.

- 691 Fifth year project (may be repeated for successive years of eligibility but must be a different exhibit. No exhibit that has been judged in any previous State Fair may be entered.) Any type of display that pertains to experiences beyond those of previous projects. Special collections of native and/or exotic butterflies, beetles to some other insect order; a study in depth of one insect or small group of insects: a display of insect camouflage: a display of plastic embedded insects: a collection of insect larvae and nymphs are examples. Charts, photographs, models or any other visual aids may be used. 4-H'ers are encouraged to write a short (1 or 2 paragraphs) statement developing the theme of their fifth year display.
- 691 B 4-Her may repeat the fourth year project with all new photographs, or submit a creative digital project that is different from the previous projects. Examples may include: a documentary on a beneficial or pest insect based on video footage and photos curated by the 4-Her; a webpage covering an aspect of entomology, featuring the 4-Hers digital photographs; a short online social-media course that teaches viewers about some aspect of entomology. This project may be repeated for successive years of eligibility but must be a different exhibit each year (or a repeat of the 4th year project with new photos).
- 691C Senior Level Entomology Video Project. 1-3 minute entomology video submitted to social media platform (YouTube), focusing on one insect or insect relative (including arachnids, centipedes, millipedes, and crustaceans) that lives in Kentucky. Specifications: same as 690C except for Senior level

Note that the jars must be glass, with the exception being the cut comb honey. Note: Two jars must be submitted for the following classes.

Display cases for capped honey may be made by 4-Hers or bought from a store, but they must be bee-proof and have a removable top in order for the judge to check moisture. One frame per container.

4-H GEOLOGY

Project entry must meet all the requirements for the class; otherwise, the entry may be disqualified. County agents should make sure that 4-H collections meet these requirements.

- See general rules applying to all 4-H exhibitors and general rules applying to all exhibits other than livestock listed previously in this catalog.
- Only one entry per 4-H member permitted in Geology Division.
- Only one entry per county per project year.
- 4LO-11S0 Identification Card should be securely attached to the lower right hand corner of the front of the box.
- Ideally, display boxes:
 - Should be no less than 14 inches and no more than 17 inches vertically and no less than 16 inches and no more than 24 inches horizontally to fit into State Fair display cases. The depth of the display boxes should be no more than 4 inches.
 - Should have an acrylic type cover (such as Plexiglas) that can be easily removed for judging.
 - Hinges and locks must be flush and mounted on the sides or top of boxes so boxes will sit level.

Note: Cardboard or plastic boxes can be used but will not be eligible to receive Grand or Reserve Champion.
- Ideally, each exhibit must be secured with a lock. Attach a key to the box with your name and county firmly attached to key. Key will be returned to 4-H agent. Keep another key in case State Fair key is misplaced. (Note: if a cardboard or plastic box is used and the 4-Her is unable to attach a lock, the exhibitor enters the collection at their own risk – meaning the State Fair and Kentucky 4-H Program are not responsible for stolen or lost items or specimens.)
- If fabric is used, use fabric glue to adhere entire piece of fabric to box. Suggested fabrics are

- felt or velveteen.
- Rocks, Minerals and Fossils: Should be firmly attached to the box. See rule 12 for label information.
 - Boxes will be displayed on their side, not flat. Therefore, larger specimens must be attached near the lower portion of the box.
 - Rocks, Mineral, and Fossil identification labels are available from the County Extension Agent for 4-H or the Kentucky Geological Survey (KGS) website (<http://www.uky.edu/KGS/education/4H.htm>). These are the only labels acceptable.
 - Specimens that are polished may lose points.
 - Exhibits may not be eligible for class champion if:
 - Box does not fit in the size stated in rule 5.
 - Box contains too few or too many specimens.
 - Box does not have an acrylic cover (Plexiglas) that can be opened.
 - Label not correctly filled out (see instructions and examples at the KGS website <http://www.uky.edu/KGS/education/4H.htm>)
 - Specimen is mounted jewelry.
 - The specimen is not clearly numbered on the label (the judge is unable to determine which specimen goes with which label).
 - Specimens are not arranged in numerical order.
 - Duplicate specimens are used to reach minimum number. However, varieties of the same rock or mineral are acceptable if the specimen is identified by a different name (such as quartz, smoky quartz, amethyst, agate, chert, flint or calcite, Iceland spar, aragonite, travertine). Also, it is acceptable if the duplicate specimen has an adjective in front of the specimen (such as calcite, red calcite, or limestone, fossiliferous limestone, oolitic limestone). If each entry in that class has duplicate named specimens, then each entry may qualify for class champion, but will not be eligible for grand champion.
 - The following score card will be used to judge Geology exhibits:
 - Correct identification and labeling - 5 points for each specimen. (Collections will be judged more favorably that have different types of specimens, rather than many different varieties of the same rock, mineral, or fossil, such as gray limestone, light gray limestone, dark gray limestone, or red calcite, blue calcite, green calcite).
 - Cards/specimen: 1 point each that each specimen has the label completely filled out, along with specimen number.

c. Found on site: Since this is an exercise in becoming familiar with rocks, minerals, and fossils, and extra 1 point will be given for specimens that are found rather than purchased or given as gifts. (Be sure to ask permission if you have to enter private property. The Internet is a good place to search for rock clubs and geological surveys of your and other states for information on collecting localities.)

d. Neatness, arrangements, background: 20 points for total exhibit.

15. 4-H'ers entering the fifth year and higher cannot enter the same exhibit that has been judged in any previous State Fair.

CLASSES

For each of the classes, specimens may consist of rocks, minerals, and/or fossils. There is a separate label for rocks, minerals and/or fossils (three different labels) at the Kentucky Geological Survey website (<http://www.uky.edu/KGS/education/4H.htm>)

- 715 First year geology - Consisting of 15 different specimens.
- 716 Second year geology - Consisting of 25 different specimens (up to 12 may be from previous project year; no more than two boxes).
